

E-Learning Instructions for Students
6th Grade Science/Health/Broadcasting
Mr. Johnson's

1. All assignments will be posted daily to Google Classroom at 8:30AM.
2. If the assignment is simply instructions, it will only appear in the Stream. If the assignment has something for you to complete, it will be in your Classwork, either under the heading "Rocks and Fossils" or "Water and Weather"
3. If an assignment has been posted to Classwork with a due date, you must turn it in by that date. You **MUST** click on "Turn in" or "Mark as done" to get full credit for this! Even if there is nothing for you to attach, please still mark it as done.
4. Feel free to post comments underneath assignments on the stream asking questions, and answer other people's questions! Text or chat with other students in the grade if you are confused by something and need clarification.
5. If you have a question for me, you may send me a private message. I will respond back to you at some point during the school day, or during the next school day. Before you ask a question, please re-read the directions, and maybe ask a friend first, and then I will be happy to clarify.
